Stacking Sliding Door

100 Series

Southern Star Windows 100 Series Stacking Sliding Door offers a unique and clever solution for today's modern style of alfresco living. Providing a space saving way to streamline the flow between indoor and outdoor spaces, the 100 Series Stacking Sliding Door is a smart, functional and easy way to achieve the lifestyle you want from your home.

Glazing Method and Options

Fixed panels glazed with co-extruded channel into door frame.

Sliding panels glazed with co-extruded channel, encased by aluminium door stiles and rails.

Can be single glazed in 4mm, 5mm, 6mm and 6.38mm glass. (please note: all sliding door glass would be glazed with Grade A safety glass to AS1288-2006).

Hardware Options

Standard cylinder/snib keyed lock - Black

Optional cylinder/cylinder deadlock - Black

Optional snib only - Black

Optional patio bolt - Black

Performance

Water 300pa maximum (size limits apply)

Overall rating 1500pa maximum (size limits apply)

Additional Options

Our exclusive Federation Surround System can add a more traditional timber appearance to your 100 Series Stacking Sliding Door.

The federation frame can be powder-coated to match your existing windows, or select an alternative colour for a unique and traditional appearance. (Federation Surround System is fitted to jambs and head of sliding door).

Our stacking door system can be fitted with a stacking flydoor or safety door system using an additional track which is fitted to the external side of the stacking door.

The stacking door system can also be corner joined. This allows maximum opening space in a corner.
