# Aluminium Sliding Doors

## 100 Series

### Glazing Method and Options

Fixed panels glazed with co-extruded channel into door frame.

Sliding panels glazed with co-extruded channel, encased by aluminium door stiles and rails.

Can be single glazed in 4mm, 5mm, 6mm and 6.38 glass.

(please note: all sliding door glass would be glazed with Grade A safety glass to AS1288-2006).

### Hardware Options

Standard cylinder/snib keyed lock - Black

Optional cylinder/cylinder deadlock - Black

Optional snib only - Black

Optional patio bolt - Black

### Performance

Water 300pa maximum  
(size limits apply)

Overall rating 1500pa maximum  
(size limits apply)

### Additional Options

Our exclusive Federation Surround System can add a more traditional timber appearance to your 100 Series Sliding Door.

The federation design is an additional frame that sits as a surround system on an existing sliding door. The federation frame can be powder coated to match your existing windows, or you can select an alternative colour for a unique, or traditional appearance. (Federation Surround System is fitted to jambs and head of sliding door).

Southern Star Windows 100 Series Sliding Door offers a solid 80mm frame and is an attractive and versatile sliding door. The 100 Series Sliding Door is available in a wide range of sizes and configurations to provide the best solution to suit your home and lifestyle.

## SOUTHERN STAR WINDOWS
